Introduction

MSC Metal Sky Contracting Company is a general contracting company registered under the laws of Saudi Arabia in 2015, primarily to cater for the developing requests of the industrial tasks.

The ambition of leadership and the passion for excellence makes us in a constant quest to be the best in the size and quality of our investments, armed with the constant development of our performance in line with our aspirations, and the diversification of our services in line with the desires of our customers to strengthen our competitive capabilities in all the activities that we work with.

We deserve responsibility in front of society and we have a history of careful planning and management of safe work sites committed to the time factor and achieving quality and excellence in performance.

We will probably surpass the desires for each customer by offering exceptional client care, expanded adaptability, and more prominent worth. Our partners are recognized by their practical and specialized aptitude joined with their hands-on understanding, in this manner guaranteeing that our customers get the best and expert assistance. We invest heavily in conveying quality items and our ability to give you the best quality of specialized help along with the most serious citations for tasks and tenders. We are a powerful substance that has effectively acclimated to the ever-changing and developing needs of our clients and business network individuals; continually enhancing customers' needs and necessities.

The MSC is a financially sound group and is capable of sustaining the cash flow required for major works as demonstrated by the projects on- going. The group today is comprised of the following component divisions:

- ⇒ **Construction of commercial and residential buildings**
- ⇒ **Construction of trenches for cable and pipes**
- ⇒ **Maintenance & renovation**
- ⇒ **Support Services Division**

Introduction

The Civil Construction Division has specialized in the field of civil works, with a particular emphasis on infrastructure and earth work, building construction, Substation construction, SVC etc., Destruction, Renovation and maintenance.

The MSC provides quality services to the Mechanical & , civil construction, and industrial sectors across the Kingdom, Led by a team of seasoned and dedicated professionals with a quality conscious approach to work, the Company takes pleasure in a first-rate status with its customers and competitors.

The MSC has an excellence to providing Catering & Facility Management services in the most remote areas of the kingdom. We have our own high quality moveable material which can be mobilized anywhere anytime.

Since 2015, we have served hundreds of customers all over the Kingdom and enjoyed good reputation and reliable service records. It is our great pleasure to serve you at your entrance.

The MSC at present supports main contractor and clients with our qualified staff and pool of equipment in different fields; Civil, Mechanical, Electrical, Construction & Maintenance works.

The MSC owns permanent camps within the vicinity of its offices to accommodate its staff and personnel to cope with clients' requirement.

We are proud to be an integral part of the Kingdom's fast infrastructure development and we have met successfully the challenge through our personal time honored and work quality commitment. We look forward to serve your construction requirements in the near future.

I am pleased to take this opportunity to extend my thanks and deep gratitude to all of our success partners who have contributed to the development and progress of Metal Sky Contracting Company, our clients, suppliers, consulting companies, subcontractors and others, starting from its humble beginnings in over short years, Metal Sky Company has managed to study and define Variables and trends that occurred in the contracting markets in the Kingdom according to a new philosophy in project management and adopted modern concepts in construction so that within a short time and in hard and hard work were able to meet the needs and requirements of customers in a manner that guarantees their satisfaction, through our full commitment to provide our services in accordance with the highest quality standards, and accomplish our work with quality, professionalism, and accurate project delivery dates. And after God helped us with to achieve this obligations, we gained the trust of our customers, and now we are still achieving that accelerated growth by providing that distinguished mix of qualified administrative, technical and engineering cadres in addition to the use of administrative methods and modern engineering techniques.

About us

About Us

Metal Sky is a general contracting company registered under the laws of Saudi Arabia in primarily to cater for the developing requests of the industrial tasks. The ambition of leadership and the passion for excellence makes us in a constant quest to be the best in the size and quality of our investments, armed with the constant development of our performance in line with our aspirations, and the diversification of our services in line with the desires of our customers to strengthen our competitive capabilities in all the activities that we work with.

Mission

To be one of the first contracting and construction companies in the Kingdom of Saudi Arabia, partners and clients must see us as an integral part of their success process, as the company has the expertise, skill and resources to meet the challenge of the conditions of the contracting business and therefore we expect their needs and fulfill all our obligations towards them.

Vision

Our Goal is to concentrate on giving our customer the best work and wellbeing guidelines in our field to achieve their full satisfaction in terms of

- ✓ Honesty & Trust
- ✓ Excellence
- ✓ Accuracy of appointments
- ✓ Quality

Values

We make progress toward greatness in all that we do through straight forwardness, trustworthiness and strive consistently to surpass the desires

Health, Safety, Quality & Environment

Quality of life is governed by concerns for health, safety and environment of our employees, our clients and our society. Work safety is not only a priority it is a value, and from the top to down we take our values seriously.

The MSC considers these to be of utmost importance in its entire works, the company ensures that all employees adhere to safety measures and practices. Appropriate gear and tools are used to ensure the safety of employees working in all areas.

From upper management to our newest employee we continue to train and update our work safety program ensuring the protection of our team and clients. Our commitment to our employees and clients alike continues to grow in promoting safety and health.

Company ownership and the board of directors throughout our entire team, work safety is a value that will not be compromised.

Our record is living proof that we will continue to do our best at preventing unforeseen incidents that we all know can cause an immense amount of suffering and loss.

All engineering design – particularly of Substations, towers caters to the safety aspect of all future users. These include proper railings, rest platforms, ladders, ladder supports, lightning protection, earthing/ grounding, aircraft warning lights, etc.

In addition, the company provides insurance cover for all vehicles and property owned by the company, and caters to workmen's compensation. All debris from construction sites is disposed-off in a proper manner so as not to damage the environment in any way.

Health, Safety, Quality & Environment

Any metal parts that are unused or made unusable are then recycled through proper scrap dealers.

Precaution is taken against polluting underground water resources, and all wastewater is disposed-off in a proper manner through sewage treatment. We hope that our small efforts will have some impact in educating the masses for a cleaner and healthier environment.

Competence, technical capability, professional and careful management of works, have allowed us to improve competitiveness and satisfy CUSTOMERS.

Our business environment – highly competitive – pushes us to constantly improve Quality to obtain higher performances. Our personnel are committed to comply with scheduled times, to overcome inefficiency and/or obstacles in organization interface to provide services fully suitable to Customers' expectations.

GENERAL MANAGER

Code of Ethics

The MSC is convinced that Ethical Conducting of business and management of one's activities and internal and public relations are essential tools for building the company's image and reputation and achieving its strategic goals and therefore attaining success.

The Code of Ethics is therefore the formal expression of the value in which the company believes and the rules that all **MSC** employees and associates are required to follow in the context of their functions and responsibilities.

The basic ethical principles characterizing The MSC code of conduct may be summed up as follows:

- ✓ **LEGALITY:** compliance with regulations and legislation in effect in the areas in which company works, the company's instructions and customers specific instructions, where applicable.
- ✓ **Loyalty:** keeping one's word and the terms of the agreement.
- ✓ **Integrity:** correct behavior in all activities and decisions (it's not admissible to take advantage of another's position of weakness or ignorance or to give misleading information).
- ✓ **Transparency:** completeness, uniformity and timeliness of information provided within and outside the company, within the limits of protection of the company's privacy and confidentiality.
- ✓ **Quality:** compliance of products and services to the quality requirements set forth in regulations, company standards and the applicable contractual specifications.
- ✓ **Safety and Environment:** safeguarding human health and safety and the environment.
- ✓ **Privacy:** protection of personal data of individuals, legal entities, organizations and associations.
- ✓ **Confidentiality:** compliance with the secrecy of company data and information which is not in the public domain.
- ✓ **Respect for human dignity:** respects for people's rights, assurance of identical opportunities and absence of discriminatory behavior, on the bases of religion, race, nationality, age, health etc.
